

【H29年度 医科学専攻シラバス】

授業科目名	大学院特別英語		授業形式	Lecture/Seminar
授業言語	English	単位数	1 credit	開講時期
コーディネータ		曜日・時限		
担当教員名 及び所属名	Vijay Kharbas			
授業のテーマ と到達目標	To develop skills in oral and visual presentation; to build confidence in public speaking in a second language; and to improve the ability to use persuasive language.			
授業の概要 と計画	<p>The class will be held weekly. Classes will consist of: 1) Preparing presentation topics; 2) Learning presentation skills through lecture and practice exercises; 3) In-class presentation to classmates; and 4) Feedback for improvement of next presentation. It is expected that there will be time for 4-5 presentations during the course, with each one being improved based on in-class feedback. Much of the work is to be done as homework, as there is limited class time for creating the presentations during class.</p> <p>Homework is a requirement of the class, and it will be critical to come to class with a finished presentation after the 2nd week. No preparation is necessary for the first class.</p>			
成績評価 と基準	Grades are based on the following: Regular attendance and participation (50%), Effectiveness of Presentations(50%).			
履修上の注意	This class will start in May, and will be conducted in English. Students are expected to make several presentations in English, with the help and guidance of the instructor. No previous presentation skill is necessary.			
学生への メッセージ	Active weekly participation is required in order to benefit from and respond to instructor's feedback.			
今年度の工夫	Increased focus on topic selection.			
教科書 参考書	Materials provided by instructor. You will need access to a PC which can be brought to class each week.
