

The G-COE First International Symposium Inflammation, Signal Transduction, and Cancer

Date: March 23,
2009,
15:30~19:00

Main Lecture Room,
Kobe University
Graduate School of
Medicine

Session 1

Hiroyuki Mutoh (Jichi Medical University)

Title: Development of gastric carcinoma from intestinal metaplasia in Cdx2-transgenic mice

Tsutomu Chiba (Kyoto University)

Title: Mechanism for mutation induction in inflammation-associated carcinogenesis

Session 2

Andy Giraud (Royal Children's Hospital, Australia)

Title: The gp130 mutant mouse; an informative model of human gastric adenocarcinoma

Masanori Hatakeyama (Hokkaido University)

Title: Oncogenic mechanisms of Helicobacter pylori CagA

This symposium was sponsored by Kobe University Global COE program
Global Center of Excellence for Education and Research on Signal Transduction Medicine in the Coming Generation
— Bringing up clinician-scientists in the alliance between basic and clinical medicine —
